**RE: NOPEC BOARD OF DIRECTORS AUTHORIZES FUNDING OF \$2.76 MILLION
ADDITIONAL DISCOUNT FOR NOPEC CUSTOMERS.**

NOPEC is committed to our members and is working hard to keep your residents' electric rates low. We are very pleased to announce that the NOPEC Board of Directors recently authorized funding an additional electric generation discount for the last 6 months of 2010 for all participating NOPEC customers totaling about \$2.76 million. This discount, which will be in addition to any generation discounts currently being received by NOPEC customers from NOPEC's electric supplier, will begin with the July 2010 meter read date and continue until the January 2011 meter read date. The discount will be displayed on NOPEC's customers' electric bills as a separate line item called the "NOPEC Customer Credit."

For NOPEC's residential customers, this credit will be a 2% discount off the applicable Price to Compare (PTC) for the generation portion of the electric bill. For NOPEC's commercial customers, this credit will be a 0.5% discount off the PTC. Although there is no guarantee that NOPEC's additional generation discount will continue beyond January 2011, the NOPEC Board of Directors will review the discount on an annual basis with the goal to provide additional discounts in the future of at least 1%. This discount is funded solely by NOPEC.

If you have any questions about this new discount, please do not hesitate to contact me by e-mail (lherington@nopecinfo.org) or telephone (440-248-1992).

Thanks for your continued support of NOPEC. **NOPEC works!**
