

March Employee of the Month: Brad Wisniewski

Brad joined the team at the Macedonia Family Recreation Center as the Membership and Marketing Coordinator in October of 2017. He can often be seen giving tours, assisting his front desk staff and doing a variety of odd jobs around the facility. Brad has played an important role in updating the facility's software, which will soon allow for online services, including online registration!!! He also stays busy maintaining the facility's website and social media pages. Establishing additional partnerships with community businesses is one of his main goals, as well as attaining more community involvement with the city's annual FunFest. Brad is a welcomed addition to the Recreation Department and his peers have even (somewhat) accepted that he's a Steeler's fan.

Brad was born and raised in Pittsburgh and moved to Ohio to attend Kent State University, where he graduated from with a Bachelor of Science in Sports Administration. He has previously worked for Kent State Athletics and the City of Tallmadge Recreation Center. When asked what he enjoys most about working in recreation, Brad says it's interacting with the people, including our members, that he enjoys the most. In his spare time, Brad enjoys skiing and playing hockey.

Congratulations, Brad!!!
