Safety Director/Economic Development

July 10, 2020

Dear Residents,

As many are likely aware, the Interim Director of the Ohio Department of Health issued an Order on July 8, 2020. Among other things, the Director's Order mandates that residents of "Alert Level Red" counties wear facial coverings in certain circumstances. A "red" county is one in which four or five public health advisory indicators have been triggered. Per the Order, facial coverings are required by the State of Ohio when individuals are: indoors (not a residence); outdoors and cannot social distance; and utilizing public transportation, a taxi, or a ride-share/car service that is stopping the a "red" county. In addition, the Order, which is available through the Ohio Department of Health's website, contains a number of (approximately 13) exceptions to this State facial covering mandate. Yesterday, the "red" counties included Butler, Cuyahoga, Franklin, Hamilton, Huron, Montgomery, and Trumbull. Just this afternoon, Summit County was elevated to an Alert Level Red County.

Please know that the City of Macedonia has been and will continue to work with the State and County in our collective and continuous efforts to help stem the spread of the pandemic. This will include working with both the State as well as Summit County to help implement the Director of Health's most recent order/amended orders requiring facial coverings.

If residents have any questions or concerns, there are a number of resources available to you, including but not limited to the State's Responsible Restart Ohio website, and the Summit County Public Health Website. Of course, we are happy to assist in answering any questions our residents may have.

Sincerely,

Mayor Nick Molnar

The Crossroads of Northeast Ohio
